About the Report

Dear readers,

We are delighted to present to you Gazprom Neft's Sustainable Development Report¹ 2020. This is the 13th non-financial public report, which details the company's approaches to responsible business conduct and its contribution to sustainable development.

The Report discloses information about Gazprom Neft PJSC as well as its subsidiaries and controlled entities (referred to in this Report as "Gazprom Neft" or the "company") for the calendar year 2020.² The company's financial and operating performance is presented based on Gazprom Neft PJSC's consolidated data. Unless otherwise specified, information on the company's labour relations, social initiatives, and environmental performance relate to Gazprom Neft PJSC as well as its subsidiaries and controlled entities in Russia and the CIS.

Information provided herein was obtained from corporate reports, requests for information in line with the guidelines contained in non-financial reporting standards, and corporate media.

The Report discloses the details of management approaches, activities and progress towards achieving economic efficiency, ensuring occupational and environmental safety, supporting and developing personnel, contributing to social and economic development throughout the regions in which the company operates and respecting human rights.

The Report contains forward-looking statements on the company's mid and long-term plans, and their feasibility depends, among other things, on a number of economic, social and legal factors beyond the company's control. Consequently, actual results may differ from those expressed in such statements.

¹ – Hereinafter referred to as the "Report".

² – Information on changes in the company's structure that occurred in 2020 is presented in the "Governance system" section of Gazprom Neft's Annual Report 2020.
